Notices of Motion – printed with the Agenda:

1. Councillor Innis re: Secondary plan process for Bolton Residential Expansion Study (BRES).

Moved by Councillor J. Innis - Seconded by Councillor N. deBoer 2015-519

Whereas, the Town of Caledon undertook and adopted population and employment forecasts for the 2031 planning horizon to implement the Growth Plan for the Greater Golden Horseshoe (2006) and related results of the Provincial Policy Conformity process through OPA 226; and

Whereas, the Town of Caledon undertook, and formally implemented the results of OPA 226 to identify priority growth areas in Bolton to accommodate 10, 3422 people and 2, 635 jobs by 2031 through the Bolton Residential Expansion Study (BRES); and

Whereas, the area north of King Street, west of the Canadian Pacific rail line, and east of The Gore Road, also known as Option 3 land, together with three small rounding out areas, was identified as the preferred growth area through the BRES process, which consisted of a formal Municipal Comprehensive Review process in accordance with Provincial and Regional Official Plan policies and full agency and public consultation; and

Whereas, the Town has submitted a complete application to amend the Region of Peel Official Plan (Peel Region file ROP 14-002) to facilitate the development of the preferred expansion area; and

Whereas, Town is supportive and proactive in requesting Metrolinx to immediately advance planning and protection of the rail corridor and station area to initiate Commuter Go Rail Services to Bolton; and

Whereas, it is in the public interest to expeditiously continue the implementation of the planning process for the preferred expansion area as a landmark transit oriented community in Caledon; and

Whereas, Town staff has developed a detailed work plan and have been working diligently on the secondary plan for the area since the submission of the Region of Peel Official Plan Amendment application; and

Now therefore be it resolved that staff be directed to:

1. Report back at the first Planning Committee meeting in 2016 on the progress of the secondary plan for the Bolton Residential Expansion Study area, including the work to develop a conceptual road network;
2. Seek Council approval to initiate and integrate within the overall secondary planning process, a BRES related municipal class environmental assessment as recommended by the approved Bolton Transportation Master Plan; and
3. Identify a name for the community that is reflective of the area's historic background.

Town Wide Speed Limit Review Staff Presentation

**David Loveridge
Director Public Works**

December 22, 2015

Posted Speed Limits

- The Transportation Association of Canada (TAC) methodology is a guideline that assists traffic engineering practitioners in setting posted speed limits:
 - “The posted speed limit is a function of the road classification, function, physical characteristics and engineering factors that influence the level of risk”
(CIMA+)
- University research and traffic studies have repeatedly shown that the **Posted Speed Limit does not affect the Operating Speeds** of the roadway or driver behaviour in general:

Motorists will drive the speed that they feel comfortable driving at (based on the overall road experience).

Speed Limit Review

- To provide a consistent approach while setting speed limits throughout the Town, staff recommend accepting the proposed speed limits within the CIMA+ Town Wide Speed Limit Review report (based on the TAC methodology)
- The same technique (TAC Methodology) was applied to all Town roads
- If Council chooses to retain or change these recommendations by artificially setting “non-guideline” speed limits, the following could occur:
 - Some motorists choose to travel at the speed limit (compliance) while most others will choose to drive at a higher rate of speed (non-compliance) which results in varied speeds;
 - Varied speeds can then result in aggressive driving behaviour (tailgating, passing in areas where it may not be safe to do so) which can increase the number of collisions; and
 - The Town will not have a standard set of guidelines and rules to follow in the setting of speed limits across the Town. i.e. there will be no system.
- The proposed speed limits should reduce the variance of speeds on Town roads, thereby improving the **overall** safety & operation of the roadway and will result in reduced stress on OPP enforcement resources.

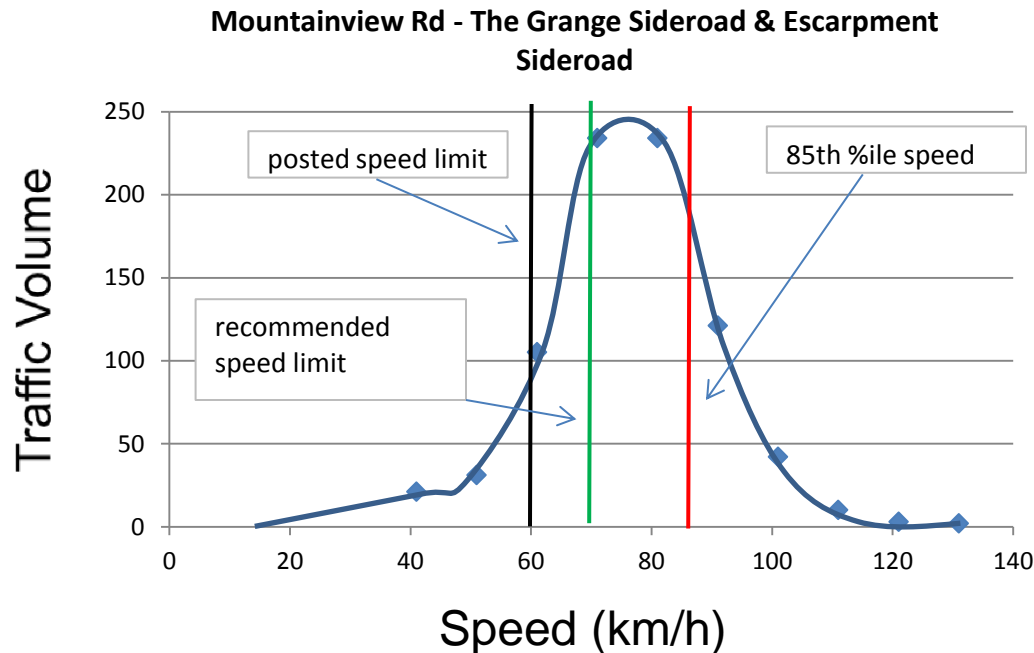

Speed Limit Table

- The following Table highlights speed information on select Town roads:

| Location | Between | Ward | Year | Posted speed limit (km/h) | 85 th %ile speed (km/h) | Study Recommended Speed Limit (km/h) |
|------------------------|--|-------|------|---------------------------|------------------------------------|--------------------------------------|
| Caledon King Townline | Castlederg Sideroad & Mt. Pleasant Rd | 4 | 2014 | 60 | 91 | 80 |
| Kennedy Rd | Highway #9 & Highpoint Sideroad | 1 | 2015 | 60 | 90 | 70 |
| Kennedy Rd | King St & Old School Rd | 2 | 2014 | 60 | 87 | 70 |
| Mountainview Rd | Escarpment Sideroad & The Grange Sideroad | 1 & 3 | 2015 | 60 | 86 | 70 |
| Winston Churchill Blvd | Highpoint Sideroad & Beechgrove Sideroad | 1 | 2014 | 70 | 97 | 80 |
| Queensgate Blvd | Sant Farm Dr/ Landsbridge St & Albion Vaughan Rd | 5 | 2014 | 60 | 59 | 50 |
| Mt. Hope Rd | Castlederg Sideroad & Old Church Rd | 4 | 2014 | 60 | 90 | 70 |
| Creditview Rd | Olde Base Line Rd & The Grange Sideroad | 1 | 2015 | 50 | 69 | 60 |

Speed Limit - Graph

- Staff have provided an example of a speed limit graph below:

- The graph highlights the posted speed limit (60km/h), the recommended speed limit (70 km/h) and the 85th percentile speed (86 km/h)

Next Steps – Before and After

- If the Staff recommendations are accepted by Council, Staff will:
 - Develop a Town-wide implementation plan for the new speed limits across the Town and communicate that to Council and residents alike'
 - Bring a Traffic Bylaw amendment forward for Council approval in early 2016;
 - Continue to collect traffic speed data and compare against the new speed limits recommended by the Consultant and staff
 - Use the observed 85th percentile speed to determine whether or not the posted speed limits have affected driver behaviour (before and after implementation)

Staff strongly believe that the results will be favourable and that these changes will improve safety on Town roads.
